Are you looking for another operator to join your team?

The Mechanized Forest Equipment Operator (MFEO) program welcomes you to the woods for a Contractor Field Day! This event is an excellent opportunity to secure work placements for the students starting in September. Throughout the event, students will showcase their skills by operating forest equipment, giving you the chance to see them in action. You will also have the chance to engage with program instructors and students one-on-one to identify the best candidate for your harvesting operations.

*Don't miss this chance to see up-and-coming talent and secure
a new operator for your harvesting operations!*
